Te bepalen / TBD (NL / EN)	General Data Protection Regulation	<p>GDPR Hoe pakken we dat aan. De GDPR is de nieuwe privacy-wetgeving en die beschermt de privacy, dus per definitie persoonsgegevens. Bedrijven en organisaties MOETEN er voor zorgen dat ze gegevens over personen enkel opslaan en gebruiken als dat nodig is. En indien dat nodig is voor de werking van de organisatie, dan MOETEN er ook aantoonbaar gepaste maatregelen worden genomen om er voor te zorgen dat die gegevens enkel worden gebruikt waarvoor ze nodig zijn en verder niet toegankelijk zijn. (Need to have / Need to know- basis, dus). Wanneer iemand meent dat u dat als organisatie niet (goed) doet, dan moet u aantonen dat u dat wel doet. Kan u dat niet, dan kunnen boetes tot 4% van uw omzet volgen?!? Zal het allemaal wel zo'n vaart lopen? Wel, het antwoord op die vraag moet u zeker vinden.
